Assam

Assam teas are grown in the Brahmaputra Valley in North Eastern India. These teas are known for their rich, malt full- bodied character and are an essential ingredient in most English breakfast blends.

Darjeeling

Darjeeling teas are often referred to as the 'Champagne' of teas. Grown at altitudes up to 2,500m above sea level, Darjeeling tea is light in colour with a delicate, muscatel flavour.

Jasmine

A fine China Jasmine flower flavour tea. Elegant and delicate perfumed notes, with a bright golden colour.
